CORPORATE DOCUMENTATION / EN

Company profile

Independent Mexican industrial quality services company, founded in 2012 and headquartered in Querétaro, Querétaro.

Conceptual illustration; does not depict actual equipment or facilities.

Wong Metrics Industrial Services, S.A. de C.V.

WMIS · Querétaro, Querétaro, Mexico · 2012

Designated domain; intended destination: wongmetrics.com

COMPANY PROFILE

Contractual services

Eleven independent offerings, with defined scopes.

SV-01

Sorting

sorting

Selection and segregation of parts according to acceptance criteria.

SV-02

Containment

containment

Containment of suspect product and lot control.

SV-03

Quality inspection

quality_inspection

Quality inspection against agreed requirements.

SV-04

Visual inspection

visual_inspection

Visual inspection of appearance, integrity and defects.

SV-05

Dimensional inspection

dimensional_inspection

Dimensional inspection against drawings and tolerances.

SV-06

Functional inspection

functional_inspection

Functional inspection against customer criteria.

SV-07

Rework

rework

Rework under customer-approved instructions.

SV-08

Controlled shipping

controlled_shipping

Controlled shipping, including Controlled Shipping Level 2.

SV-09

Resident engineering

resident_engineering

Resident engineering and in-plant quality support.

SV-10

Supplier quality

supplier_quality

Supplier quality support.

SV-11

Contract metrology

contract_metrology

Contract metrology for dimensional verification.

COMPANY PROFILE

Technologies and industries

Technologies used

TC-01	CMM
TC-02	Machine vision systems
TC-03	Optical comparators
TC-04	3D scanners
TC-05	Surface roughness measurement equipment
TC-06	Digital torque wrenches
TC-07	Functional test systems
TC-08	Digital SPC
TC-09	Barcode and QR traceability
TC-10	Proprietary inspection tracking platform

Ownership is declared only for the tracking platform. Barcode and QR constitute a single technology.

COMPANY PROFILE

Presence in Mexico

Wong Metrics provides services across all 32 federal entities of Mexico through mobile teams and regional centers.

LC-01

Querétaro, Querétaro

Headquarters + Technical Center

One facility with two functions. Houses the Querétaro metrology laboratory.

LC-02

Monterrey, Nuevo León

Regional Operations Center

Physical facility in Mexico. The Querétaro laboratory accreditation does not extend to this center.

LC-03

Saltillo, Coahuila

Regional Operations Center

Physical facility in Mexico. The Querétaro laboratory accreditation does not extend to this center.

LC-04

Puebla, Puebla

Regional Operations Center

Physical facility in Mexico. The Querétaro laboratory accreditation does not extend to this center.

LC-05

Guadalajara, Jalisco

Regional Operations Center

Physical facility in Mexico. The Querétaro laboratory accreditation does not extend to this center.

> Has five facilities, not 32 offices. Does not operate outside Mexico.

COMPANY PROFILE

Metrics in context

14

Years of experience

2026 statement

Wong Metrics industrial services

Published experience, not calculated

> More than 300 organizations served from 2012 through September 2026. Declared cumulative corporate total.

COMPANY PROFILE

Documented relationships

Six fictional public customers: a subset of the 128 active recurring customers. No testimonials are published and the remaining customers in the statistical total are not identified.

CL-01

Altura Automotive México

Altura Automotive México has been a Wong Metrics customer since 2018 for Sorting, Containment services.

Active recurring customer as of September 2026

CL-02

NovaDrive Components

NovaDrive Components has been a Wong Metrics customer since 2019 for Controlled shipping, Resident engineering services.

Active recurring customer as of September 2026

CL-03

Helix Aerospace Systems

Helix Aerospace Systems has been a Wong Metrics customer since 2020 for Dimensional inspection, Contract metrology services.

Active recurring customer as of September 2026

CL-04

Nortech Electronics

Nortech Electronics has been a Wong Metrics customer since 2021 for Quality inspection, Functional inspection services.

Active recurring customer as of September 2026

CL-05

MedAxis Devices

MedAxis Devices has been a Wong Metrics customer since 2022 for Visual inspection, Functional inspection services.

Active recurring customer as of September 2026

CL-06

FerroMotion Industries

FerroMotion Industries has been a Wong Metrics customer since 2020 for Sorting, Rework services.

Active recurring customer as of September 2026

COMPANY PROFILE

Completed projects

PJ-01 · FICTIONAL / COMPLETED

Northstar

Altura Automotive México

2025-02-01 — 2025-05-31 · Querétaro, Querétaro

Sorting and containment of 1.8 million automotive components.

Sorting, Containment

PJ-02 · FICTIONAL / COMPLETED

Falcon

Helix Aerospace Systems

2025-07-01 — 2025-09-30 · Querétaro, Querétaro

Dimensional inspection during a line transfer for the aerospace customer.

Dimensional inspection

PJ-03 · FICTIONAL / COMPLETED

MedCheck

MedAxis Devices

2026-01-15 — 2026-04-30 · Guadalajara, Jalisco

Visual and functional inspection of medical devices.

Visual inspection, Functional inspection

PJ-04 · FICTIONAL / COMPLETED

LaunchSafe

NovaDrive Components

2026-03-01 — 2026-06-30 · Saltillo, Coahuila

Controlled Shipping Level 2 during the launch of a new automotive component.

Controlled shipping

> 1.8 million automotive components in Northstar: project total from February 1 through May 31, 2025.

COMPANY PROFILE

Credentials and distinctions

SIMULACIÓN PISORT / SIN VALIDEZ REAL
PISORT SIMULATION / NOT LEGALLY VALID

ISO 9001:2015 · Certification

Management system for the eleven services across the five locations of the fictional reference company.

SIM-WM-ISO9001-001 · 2025-01-15 — 2028-01-14

Simulation details ↗

ISO/IEC 17025:2017 · Accreditation

Querétaro metrology laboratory; dimensional measurement of components using CMM.

SIM-WM-17025-001 · 2024-06-01 — 2028-05-31

Simulation details ↗

The scope does not cover the entire company, other facilities, all technologies, universal calibration or all metrology capabilities. No measurement uncertainties or numerical capabilities are declared.

REPSE · Registration

Provision of the fictional reference company's specialized services in Mexico.

SIM-WM-REPSE-001 · 2025-03-01 — 2028-02-29

Simulation details ↗

Fictional recognitions (not certifications)

Supplier Quality Excellence 2024

Altura Automotive México · 2024-11-15

Recognition of Wong Metrics for sorting and containment support during 2024.

Industrial Services Innovation Award 2025

Foro Simulado WM de Innovación Industrial · 2025-11-20

Recognition of Wong Metrics for its inspection tracking platform.

COMPANY PROFILE

Availability and limitations

24/7

> 24/7 operations available for containment, sorting and in-plant support projects. This does not imply permanent availability of all laboratories, offices or services, or an arrival or response time commitment.

Querétaro laboratory

Querétaro metrology laboratory; dimensional measurement of components using CMM.

The scope does not cover the entire company, other facilities, all technologies, universal calibration or all metrology capabilities. No measurement uncertainties or numerical capabilities are declared.

CR-02 is a simulated accreditation with no real validity.

Offering limitations

- Does not have a manufacturing plant or manufacture parts.
- Does not sell CMM equipment.
- Is not IATF 16949 certified.
- Does not offer supplier representation (supplier_representation).
- Does not offer testing as a contractual service.
- Does not offer quality_engineering as a contractual service.
- Does not offer generic metrology as a separate service.
- Does not operate outside Mexico.
